

Name:

Animal:

Endangered Animals of the World Project

The project has 3 components:

1. Research:

- o typed bibliography
 - o 1 book
 - o 1 database
 - o 1 internet site
 - o The internet sites must be reliable and trustworthy.
 - o Example: <http://www.worldwildlife.org/>
- o You will have 6 days to research and work in class. Any other research will be conducted on your own time.

2. A presentation to the class on your findings.

- o Presentations must be at least 10 minutes long.
- o common name of the species
- o scientific name of the species
- o A description of their natural habitat
- o where in the world the animal is found
 - o in the past
 - o in the present
- o Life history characteristics:
 - o Diet
 - o size of animal
 - o housing requirements
 - o climate requirements
 - o relationship with other species (Predator/prey)
 - o how old are they before they reproduce
 - o how many offspring
 - o how often do they reproduce
 - o when is the animal active: *seasonally?* *Day? Night?*
 - o Living habits: *solitary? Group or pack animal?*
 - o All basic biological and interesting facts.
- o Why is this animal endangered? *Overhunting? Habitat destruction?*
- o When was it listed as endangered?
- o What is the present-day world-wide population size? *How many left?*
- o What conservation efforts are underway? What is being done to save the species? Are the efforts working?
- o What organizations exist to promote the preservation of this species?
- o Other interesting facts that you have found. Remember to go above and beyond!

3. A Glogster which includes the following topics:

- o common name of the species
- o scientific name of the species
- o at least one picture of the species
- o a map of their original range (if possible) as well as the present-day range
- o 5 of the following life history characteristics:
 - o Diet
 - o size of animal
 - o housing requirements
 - o climate requirements
 - o relationship with other species (Predator/prey)
 - o how old are they before they reproduce
 - o how many offspring
 - o how often do they reproduce
 - o when is the animal active: *seasonally?* *Day? Night?*
 - o Living habits: *solitary? Group or pack animal?*
 - o All basic biological and interesting facts.
- o Why is this animal endangered? *Overhunting? Habitat destruction?*
- o When was it listed as endangered?
- o What is the present-day world-wide population size? *How many left?*
- o What conservation efforts are underway? What is being done to save the species? Are the efforts working?
- o What organizations exist to promote the preservation of this species?

IMPORTANT DATES:

9/16-9/23	In-class research / writing / glogging
9/22	Notes checked and sources cited
9/23	Bibliography / Website evaluation forms due
9/30	Entire project due

Research Notes

Due September 22, 2009

Directions: Write facts from research on these pages. BE SURE to write the last name(s) from your works cited sheet in parenthesis (Wiseman) to avoid plagiarism.

- common name of the species ()

- scientific name of the species ()

- A description of their natural habitat ()

- where in the world the animal is found ()
 - in the past ()

 - in the present ()

- Life history characteristics:
 - Diet ()

 - size of animal ()

 - housing requirements ()

 - climate requirements ()

 - relationship with other species (Predator/prey) ()

- how old are they before they reproduce ()
- how many offspring ()
- how often do they reproduce ()
- when is the animal active: *seasonally? Day? Night?* ()
- Living habits: *solitary? Group or pack animal?* ()
- Why is this animal endangered? *Overhunting? Habitat destruction?* ()
- When was it listed as endangered? ()
- What is the present-day world-wide population size? *How many left?* ()
- What conservation efforts are underway? What is being done to save the species? Are the efforts working? ()
- What organizations exist to promote the preservation of this species? ()
- Other interesting facts that you have found. ()
